**MONITORING**

- ✓ Fuel efficiency
- ✓ Power recovery
- ✓ Productivity
- ✓ AdBlue®/DEF consumption
- ✓ CO<sub>2</sub> reduction

DLG Certificate 7372

## Overview

The DLG QUALITY SEAL for operating equipment and consumables encompasses products, which are subjected to extensive testing of their value-determining and advertised characteristics. The tested criteria and the requirements to be fulfilled are specified by independent commissions and are designed – over and above legal requirements – to prove the product’s fitness for purpose, its advertised characteristics and practical requirements. Testing contents and requirements are developed further by the responsible specialist departments of the DLG e.V. in line with the applicable legislation, as well as with technical and scientific progress. Successful testing is concluded with the assignment of the DLG QUALITY SEAL. The approved products are then published.

## Test results

DLG QUALITY PROFILE			Cleaning effect confirmed
<b>CLEAN-UP after Dirty-Up</b>			
<b>Fuel Efficiency</b>	up to 3.6 % better / 2.1 % ave	(PTO testing)	✓
<b>Power Recovery</b>	up to 15.5 % / 12 % ave	(PTO testing)	✓
<b>Productivity</b>	up to 20.4 %	(PowerMix testing)	✓
