DLG Test Report 7440

## Overview

A test mark “DLG-APPROVED for individual criteria” is awarded for agricultural products which have successfully fulfilled a scope-reduced usability testing conducted by DLG according to independent and recognized evaluation criteria. The test is intended to highlight particular innovations and key criteria of the test object. The test may contain criteria from the DLG test scope for overall tests, or focus on other value-determining characteristics and properties of the test subject. The minimum requirements, test conditions and procedures as well as the evaluation bases of the test results will be specified in consultation with an expert group of DLG. They correspond to the recognized rules of technology, as well as scientific and agricultural knowledge and requirements. The successful testing is concluded with the publication of a test report, as well as the awarding of the test mark which is valid for five years from the date of awarding.

The “Operating Safety” and “Permanent Load” tests were carried out as laboratory tests according to the DLG test framework. The purpose of this test is to verify the permanent function and to determine any material fatigue that may occur. Other criteria were not assessed.

## Test results

The automatic gate system “Agridoor” from the company Galebreaker has passed the test “Operating Safety” and “Permanent Load”. In order to successfully complete the examination, each criterion must separately show a “standard” or better.

DLG QUALITY PROFILE	Test results	Evaluation*
<b>Operating Safety</b>	occasional interruptions	■ ■ ■ □ □
<b>Permanent Load</b>	no significant wear	■ ■ ■ ■ □

You can find the detailed DLG test report in German language at the Internet address:

<https://www.dlg.org/en/agriculture/tests/query-for-test-reports/?unterkategorie=17&page=1&pruefgebiet=3>

\* The DLG test framework provides the following options in its evaluation schemes:

■ ■ ■ or better = meets, exceeds or clearly exceeds the specified DLG standard, ■ □ = meets the legal requirements for marketability, ■ = failed
