

DLG Test Report 7500

Matthias Engelberth

Rubber Walkingway GLM 1030

Deformability/elasticity, Permanent tread load,
Bending strength

**MATTHIAS ENGELBERTH
RUBBER WALKINGWAY GLM 1030**

- ✓ Deformability/elasticity
- ✓ Permanent tread load
- ✓ Bending strength

DLG Test Report 7500

Overview

A test mark „DLG-APPROVED for individual criteria“ is awarded for agricultural products which have successfully fulfilled a scope-reduced usability testing conducted by DLG according to independent and recognised evaluation criteria. The test is intended to highlight particular innovations and key criteria of the test object. The test may contain criteria from the DLG test scope for overall tests, or focus on other value-determining characteristics and properties of the test subject. The minimum requirements, test conditions and procedures as well as the evaluation bases of the test results will be specified in consultation with an expert group of DLG. They correspond to the recognised rules of technology, as well as scientific and agricultural knowledge and requirements. The successful testing is concluded with the publication of a test report, as well as the awarding of the test mark which is valid for five years from the date of awarding. The test was based on the DLG Testing Framework for elastic stable flooring, as of December 2018 and DIN 3763:2022-08 (Elastic floorings for cattle and dairy cows walking and rest surfaces – Requirements and testing). Other criteria were not tested.

MATTHIAS ENGELBERTH
RUBBER WALKINGWAY GLM 1030

- ✓ Deformability/elasticity
- ✓ Permanent tread load
- ✓ Bending strength

DLG Test Report 7500

Test results

DLG QUALITY PROFILE	Evaluation*
Deformability and elasticity in new condition	■ ■ ■ ■ ■
Deformability and elasticity following endurance test	■ ■ ■ ■ ■
Lasting deformation following endurance test	■ ■ ■ ■ ■
Wear following endurance test	■ ■ ■ ■ □
Bending strength	■ ■ ■ ■ ■

* DLG Evaluation range:

- ■ ■ or better = meets, exceeds or significantly exceeds the established DLG standards,
- □ = meets the legal requirements for marketability, ■ = failed

Requirements of DIN 3763 are fulfilled for deformability and elasticity.
